UPDATED 11/26/19

PortBook was created for boaters by boaters and features businesses up and down the East Coast with special concentrations of businesses in Newport and Annapolis. Separate editions of PortBook are printed annually for Newport and Annapolis and include comprehensive maps of the ports, marine service listings, and visitor information. While the main focus of PortBook is marine services, we also feature restaurants, bars, and attractions, because even the most serious boater goes ashore now and again, and what better recommendation can you have than that of another boater?
